

AGENDA OF EVENTS - DARPAN 2020

"The themes of my seminars are pretexts to examine what separates you from the Life and Love that you are. Do not come only for the theme but for the opportunity to gain in consciousness, intelligence and love.

The encounters offer the opportunity to discover and acquire valuable skills and knowledge in exploring your inner life and in resolving your difficulties.

Don't come out of curiosity or just for the words but to feel and receive the energy and the Presence behind the words "
